

Houston High-Speed Rail Watch

We are a neighborhood group and our mission is to advocate for smart connectivity between Houston's high-speed rail station and downtown.

WHAT WE NEED FROM YOU:

There is nothing stronger than neighborhood alliance. In order to keep the bullet train or high-speed rail from disrupting our neighborhoods, we need to come together with an alternate plan. We've already laid the groundwork and developed a plan with city insiders. Now we need your support! The plan created is the most economical and feasible solution, while keeping in mind smart options that will benefit all of us in the future.

We ask that you sign our proposal and stand strong with us as we protect our neighborhoods.

Ask yourself this...

- Do you fear your home being torn down in order to build a bullet train?
- Do you fear that what was once your city view, or a view of a park, may turn into a view of a massive elevated train?
- Do you fear that our city leaders are not taking an active approach to the growing population of Houston?
- Do you envision an environmentally-friendly inner-Houston transportation system?
- Do you dream of one day being able to hop around from your home to the Galleria, the airport or downtown without having to park?
- Do you believe that Houston needs a smart transportation plan that will benefit Houstonians?

If you answered yes to any of these questions, we understand, and we are the right group to represent you!

We are a group of neighbors from...

Inwood Forest
Oak Forest
Garden Oaks
Independence Heights
West End
First Ward
Sixth Ward
Super Neighborhood 5
Super Neighborhood 12
Super Neighborhood 22
Super Neighborhood 51

WHY THE URGENCY?

Even though Texas Central Partners has proposed to terminate the bullet train outside of the 610 loop, we still have some Houstonians and groups pushing for a bullet train termination point downtown. There is no final word yet, and we must be proactive!
